**Incident Description :**

(Added by Peggy B)

Minnie was having a bad morning, we were trying to keep her distracted by having her fold towels but Ebenezer said something to her and she went off on him. She threw the towels at him and screamed obscenities at him. Ebenezer was quite upset and ate very little lunch due to the distraction.

**Incident Cause :**

(Added by Peggy B)

Minnie was very agitated this AM when we tried to get her to shower. We were trying to distract her with laundry but that did not help.

**Incident Care Provided :**

(Added by Peggy B)

We separated Minnie and Ebenezer and kept Minnie busy with a puzzle. She has been agitated all day and we have spent much time trying to keep her busy and keeping her mind occupied.

**Plan to Prevent Reoccurrence :**

(Added by Peggy B)

Keep Minnie occupied with activities that she can do without others. She seems to be agitated by other residents.
